

HPS025 **Part#:** HPS025

Portable self piercing grommet press for #3 clear plastic grommets.

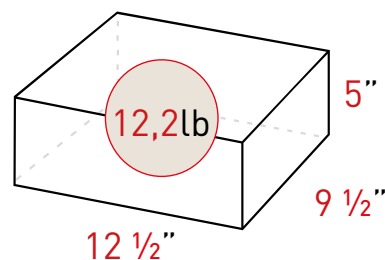

Our entry level hand press is the perfect tool for small sign shops. There is no need to work on a fixed position and you can easily set grommets on your bench or ground.

This grommet press has been designed to set clear grommets on different materials as PVC banners, Coroplast ... but not on fabrics where it can create wrinkles around the grommet.

Reasons why you shouldn't miss this hand press:

- No need to precut the material, machine does cutting and setting in a single operation
- Portable, move the press and not the banner
- European manufacturing

You need to order:

Hand press: part# HPS025

#3 (12mm) Die: part# 2002012AUTO

• For PVC banner • Not for fabrics
