

AutoCross CE

Perfect for mid-size customers!

The perfect machine for mid-size customers working on fabrics and PVC banners.

AutoCross has been designed for volume users who do not require as many features as Multipress can offer but still need to work on a wide range of materials, from fabrics to PVC banners.

For PVC banners

For fabrics

Reasons to choose Autocross:

- It can work with different types of materials: fabrics, corrugated plastics, clear foil, PVC banners ...
- Adjustable cutting pressure.
- Adjustable eyelet closing pressure, even on thin fabrics material will not roll.
- Laser pointer for accurate setting.
- Operator safety first: if any of the security devices are removed, machine will not work showing a warning light.
- Powerful engine (1 HP) with transmission belt. Extremely easy to unblock when operator sets one grommet over another.
- Being electrical means fast cycles, up to 50 grommets per minute.
- Easy maintenance.
- Grommet spacer so all of them are set to the same distance.
- Available for PLASTGrommet #3 clear plastic grommets.
