

# Evolution

## For PVC banners

Our pneumatic machine for mid-size companies working with PVC banners.

Evolution has been designed for mid-volume users who do not require as many features as Multipress or AutoCross can offer but still need to work with an automatic machine.

130 lb

WEIGHT

120 v

POWER SUPPLY

90 psi

COMPRESSED AIR

○○○ High productivity

For PVC banners

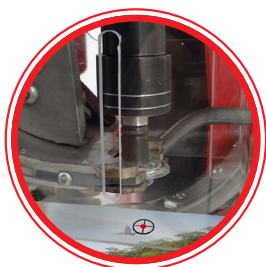

Not for fabrics

Easy loading

Eyelet spacer

Laser pointer

Safety protection

## Reasons to choose Evolution:

- It can work with PVC banners and semi-rigid materials as corrugated plastic.
- Laser pointer for accurate setting.
- Operator safety first: if any of the security devices are removed, machine will not work.
- Castor mounted, possible to move the machine on the ground or table.
- Grommet spacer so all of them are set to the same distance.
- Evolution works with compressed air, the faster you set grommets the more liters you will require.
- Machine can set up to 35 grommets per minute.
- Available for PLASTGrommet #3 clear plastic grommets.
- Optional stands available.
