

MultiPress

A great electric grommeting press for industrial users.

Multipress has been designed with large volume users in mind, it is fast (electric), reliable (washer and grommet detector), features a double washer raceway, it can work with fabrics as well as PVC banners and it will inform you when maintenance is due, a must have for companies finishing large number of banners.

COMPRESSED
AIR

 High productivity

For PVC banners

For fabrics

Pre-cut

Reasons to choose Multipress:

- It can work with different types of materials: fabrics, corrugated plastics, clear foil, PVC banners ...
- Adjustable cutting pressure.
- Adjustable grommet closing pressure, even on thin fabrics material will not roll.
- Grommet and washers sensors, to prevent incorrect settings.
- Touchscreen, allowing you to choose sensors, working mode, language, number of grommets set ...
- Laser pointer for accurate setting.
- Double washer supply on raceway. If one side is empty the other automatically works.
- Pre-cutting mode for special materials. When operator presses the pedal, machine will first cut the hole and then set the grommet (no need to press the pedal again).
- Operator safety first: if any of the security devices are removed, machine will not work showing a warning message on the screen.
- Powerful engine (1 HP) with transmission belt. Extremely easy to unblock when operator sets one eyelet over another.
- Being electrical means fast cycles, up to 50 grommets per minute.
- Easy maintenance: when it is due a warning message will be shown on the screen.
- Grommet spacer so all of them are set to the same distance.
- Available for PLASTGrommet #3 clear plastic grommets.
